What challenges (if any) do you anticipate in implementing the framework to prevent gambling harms in your local area?

Changing the narrative

Industry is very well established in communities

issues with resource and engaging colleagues across LA

More LA accountability required

The framework will help massively to help select and focus actions that fit local place as starters for 10!

Disregard for low risk and moderate risk harms

Artificial restrictions on accessing lived experience and recovery based knowledge due to assumptions made about past funding choices. LLE based involvement eschews any pro-gambling agenda.
